Our Services

Our services are designed to help you get the results you want, whether that's launching a new product, generating buzz around your brand, or closing your next round of funding.

● Tech

From prototyping your MVP to re-localizing or scaling your product, we'll work with you every step of the way.

● Growth

Our team is here to help you craft a compelling narrative, reach your target audience, & build a strong customer base.

● Funding

We'll work with you to build a pitch deck to stand out to investors and guide you to find the right investors.

Tech

On-Demand Engineers

We give you the ability to “rent” talent - low investment and high control with specialized talents. We will match you with our vetted developers from top FAANG companies to work with you at a fixed rate of \$60/\$80/\$100 per hour, depending on seniority.

Full-Time Recruiting

If you hope to build your own full-time team in North America. We will help you match at least 5-8 developers that meet your expectations, set up interviews, and conduct background check and only take 15% commission after the talent has been hired.

Growth

Press Release

Release your product launch or fundraising news on 30-40 top media sites within 2 days with \$1K-2K USD per article.

Content Marketing

Draft your articles, sales decks, & blogs by top writers from tech and consulting (variable pricing)

In-Person Events

Host in-person events like workshops, conferences, competitions, or even after parties in Canada and US (starting at \$4K USD).

Social Media

Build a brand presence on social media (LinkedIn and Twitter) all managed by us at \$300 USD/month/channel.

Funding

Raising Capital

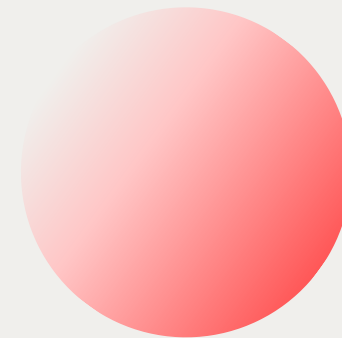

- Pitch Deck: draft your storyline, define your positioning, show your strength and clarify your roadmap at \$100-\$200 per slide;
 - One-Pager: summarize your startup with a teaser for sharing;
 - White Paper: help you refine your technical content so it makes sense for both investors and builders (variable pricing).
-

Applying For Grants (additional requirements)

- Canada: grants and credits for hiring & product development;
- China: grants and free office space for setting up a local entity;
- Cloud: grants and credits for free on AWS, GCP, and Azure (free).
